

## Где можно поговорить по-английски

Hello! When we learn English and want to start to speak, we must speak as often as possible. But where can we do it? So, there are many websites where people can improve their speaking skill. And here are some of them:

### 1) International chats.

Such chats give you a good opportunity to talk to people in English. But unfortunately, there are many spam and freaks there. You can check some chats out, but it's really hard to find a good speaker this way.

### 2) Interpals.net

A good international social network for those who learn languages. Just sign up there and go to a search form to find people who learn English. And also you can find native speakers who learn Russian and help each other. It's very useful! I often use this website and I found there all my current pen-friends.

### 3) Sharedtalk.com

One more very good resource to talk in English on voice chat. Sign up there, go to a voice chat and just call somebody or you can wait when someone calls you. I spend much time there and I like it. So, check this out!

### 4) Skype.

Just go to a search form, write «I want to talk» and click add contact. To be honest, it's seldom where I use this way, but anyway, it works.

### 5) Some English clubs in your city.

Yes, it's pretty fashionable currently to visit such clubs and talk to people in reality. And it's the best way to improve your language, guys! As for me, I've not visited such clubs yet, but I know there are plenty of them in Moscow. May be I will when I have time=) So just find clubs like that in your city and visit them! It's usually not expensive.

That's it, my friends. Train your speaking skill, if you wanna start to speak English shortly! Don't be quiet, it impairs your ability to speak! Improve your language and good luck!
