

Пока, пока 2014 год!

That's it my friends! 2014 is getting closer to its end, and we have only 3 days left to the New 2015! I don't know like you, but I like this time. The time of upcoming holidays. As long as I can remember myself, I've always liked this period of the year! People are busy preparing for the New Year's Eve and buying gifts for their friends and families. As usual the last week of December is very hectic and extremely nice at the same time! There is something magical in it!

I hope that it was a good year for you! As for me, I can say that 2014 was full of events for me! Some of them were good, some of them were not, but in common I had a pretty nice year! So let me tell you about the most bright things that have happened to me this year!

First of all, I graduated from Moscow Power Engineering University and got Master of Science in engineering! It was the most important event for me in 2014! I was really glad to finish my studies and very sad at the same time! I met a lot of nice people in University and those 6 years of studying were one of the best in my life, that's for sure!

The next event I remembered was not a happy one at all. I lost my dog. He was 12 years old and died of age. It was really hard for me and my family. After a few months we made up our minds to buy a puppy of French Dog and we did it! Now he is 6 months old already and we love him very much!

In summer of 2014 my girlfriend and I went to Cyprus and had a magnificent time there! Cyprus is a great country with a lot of interesting things to see and to do! We enjoyed our holiday and came back with lots of bright emotions! If you've never been to Cyprus, we highly recommend this island to you! You will not regret!

The next interesting thing that happened to me was my busyness trip to Germany! It was fantastic! I went to the main factory of our company in Allendorf! Other then Allendorf we visited Frankfurt and Marburg. Before the trip I didn't like Germany for some reason, but after the trip I completely changed my opinion about that country! It was very interesting for me to visit all those cities! I enjoyed that busyness trip!

In 2014 I've opened my own online school of learning English. Currently 7 students already learn English with the teachers of my school! I'm really glad that my project helped people to find good tutors and study with them on the constant basis! If you'd like to try learning English by skype, you're always welcome my friends! For more information please go to the page "Онлайн школа" above!

Finally, during the whole year I've been improving my blog! It brought nice results! The average number of visitors increased from 200 to 500 and I'm very glad about that! Thank you my friends for all your kind comments and feedbacks which always make me happy! In 2015 I'm going to keep working on my website and to share with you different kinds of interesting and useful material about learning English!

That's all I wanted to share with you today my friends! Happy New Year! May God bless you with happiness and health in 2015! Take care!
