

## Говоря о похвале

Hello my friends! How do you usually praise people in English if they do well? In this article I'd like to share with you several useful phrases that will help you to do it!

I remember when I did some exercise correctly, my tutor was always saying to me:

Well done!

«Well done!» is a very good and common phrase to praise somebody if he's done something in a good way. For example:

– I've passed all my exams!

– Well done, my friend! Congratulations!

The next good phrase is «Good job!»:

– I've got 10 balls out of 10 for the test!

– Good job!

The next pretty common and popular phrase is «Good for you!»:

– I've finished my report.

– Good for you!

Below you will find more phrases on this point! Keep learning English and take care!
