

Говоря об отпуске!

Hello my friends! The weather is awesome outside, isn't it? I like summer. This is my favorite time of a year. And as usual in summer lots of people take holidays and just go to the seaside to enjoy the sun, the sea and to relax doing nothing. And that's right! It's very important to have a rest from time to time.

So I hope that you have great plans for this summer, which is going to begin in one day actually. Enjoy this season guys and regain your strength to be ready for a new work term!

And as you already got it, in this article I'll give useful vocabulary to discuss the topic «Holiday» and be able to keep up a conversation!
