

Перевод и употребление Ain't.

Hello, my friends! As you know, conversational English has a lot of slang. British people don't really like using it the speech, whereas Americans and Canadians use slang pretty often.

Today I'd like to tell you about one of such phrases. The phrase is "Ain't".

"Ain't" is a short form for "*am not, are not, is not, have not, has not.*" For example:

I ain't your friend.

He ain't got your message.

It ain't my car.

You ain't his brother.

It's not right to use this phrase in writing. You can only use it in a conversation.

Keep learning English and take care!
