

B1 Dialog #2 Talking about airplanes.

Hi everyone.

Today we are going to talk about airplanes. As usual, you can download PDF for this video. In order to do this (для того, чтобы это сделать), follow the link below.

t.me/englishwithrinat

Listen to the dialog and read along. So you will understand it better and will remember new vocabulary faster.

- (1) What **springs to mind (приходит на ум)** when you hear the word 'airplane'? (Что приходит на ум, когда ты слышишь слово "самолет")?
I start thinking of the sky and traveling. Also some thoughts about airports spring to mind.
- (2) How important are airplanes? (На сколько важны самолеты?)
*Airplanes **let us get** (позволяют нам перемещаться) to different cities and countries **in a short time** (за короткое время). So we can easily travel a lot.*
- (3) What do you know about the history of airplanes? (Что ты знаешь об истории самолетов?)
*Not much. As I know, the first one was **invented** (to invent - изобретать) in 1903 by Wright brothers - Orville and Wilbur. **The same year** (в этом же году) they made their first controlled and **sustained** (sustain - устойчивый, непрерывный, долгий) flight.*
- (4) What different kinds of airplanes are there? (Какие виды самолетов существуют?)
***Speaking of** (говоря о) general classification, there are two kinds of airplanes: for civil **purposes** (purpose - цель, назначение) and for military.*
- (5) How have airplanes changed **over the years** (с годами)? (Как самолеты изменились с годами?)

Airplanes became more comfortable, safer and faster.

- (6) Would you like your own plane? (Ты бы хотела свой собственный самолет?)

*No, I wouldn't. It's **rather** (довольно) expensive and **useless** (бесполезно) in my case.*

- (7) What is the best airplane in the world? (Какой самолет самый лучший в мире?)

*It's a Boeing 777. It's the **safest** (самый безопасный) airplane in the world.*

- (8) Is it better to travel by airplane or by cruise ship? Why? (Лучше путешествовать на самолете или на круизном лайнере? Почему?)

***In my opinion** (по моему мнению) it's better to travel by airplanes because I like visiting new places, but don't like spending much time **on the way** (на дороге).*

- (9) What do you think when you see an airplane in the sky? (О чем ты думаешь, когда видишь самолет в небе?)

Somebody is having a holiday.

- (10) Would you like to work on an airplane? (Ты бы хотела работать на самолете?)

*I **associate** (ассоциирую) airplanes with holidays, not with work. So no, I wouldn't.*

- (1) How do airplanes work? (Как работают самолеты?)

*Each airplane has **engines** (двигатели) and **wings** (крылья). Engines **speed** the airplanes **up** (to speed up - разгонять) and then the wings make them **take off** (to take off - взлетать).*

- (2) How dangerous are airplanes? (На сколько опасны самолеты?)

*First airplanes were **probably** (вероятно) not so reliable, but nowadays flying with airplanes is not dangerous at all. Each system is **dubled** (дублируется) in the airplanes, so if something **breaks** (ломается), there is a spare one.*

- (3) What will airplanes be like in the future? (Какими будут самолеты в будущем?)
I think that they will be getting (будут становиться) faster and faster. And maybe we will be able to travel to other planets oneday.
- (4) Which is better, Boeing or Airbus? (Что лучше, Боинг или Эйрбас?)
*To be honest (если честно), I don't know. As I know, Boeing is more popular and they have more airplanes. But I **might be wrong** (могу ошибаться).*
- (5) What movies have you seen about airplanes? (Какие фильмы о самолетах ты видел?)
***Recently** (недавно), I've watched a good movie. It's called "Terminal" with Tom Hanks and Kate Zeta-Jones. The movie is old, but it is really worth watching.*
- (6) Would you like to fly (pilot) an airplane? Why? (Ты бы хотел поводить самолет? Почему?)
*Yes, I would. I think it is an interesting and **unforgettable** (незабываемый) experience.*
- (7) What effect do airplanes have on the **environment** (окружающая среда)? (Какой эффект самолеты оказывают на окружающую среду?)
*A bad effect of course, because they **run on jet kerosene** (работают на авиакеросине). But I think the **emissions** (выбросы) are not bigger than from cars, because there are much more cars in the world.*
- (8) How do airplanes get off the ground and fly? (Как самолеты взлетают и летают?)
*As I said (как я сказал), the **engines speed the airplane up and then the wings make it get off the ground** (оторваться от земли, взлететь). In order to control the airplane during the fly, the pilot has a special control wheel and can drive the airplane like a car.*
- (9) How **cool** (круты) are airplanes? (На сколько круты самолеты?)

*They are really **awesome** (потрясающие). Hope we will be able to travel again, when the pyndemy ends.*

(10) What three adjectives describe airplanes? (Какие три прилагательных описывают самолеты?)

They are fast, beautiful and safe.

Vocabulary.

spring to mind - приходить на ум

in a short time - за короткое время

to invent - изобретать

sustain - продолжительный, долгий

the same - такой же

speaking of - говоря о

a purpose - цель, назначение

over the years - с годами, спустя годы

useless - бесполезный

rather expensive - довольно дорогой

in my opinion - по моему мнению

on the way - в дороге, в пути

associate - ассоциировать

an engine - двигатель

wings - крылья

to speed up - разгоняться

to take off - взлетать

probably - вероятно

recently - недавно

unforgettable - незабываемый

the environment - окружающая среда
