Hello my friends! Do you like to sleep? Of course you do. I think that everybody likes sleeping. It's so cool to get enough sleep in the weekends! I don't know as you, but I like it very much. Sleep helps us to regain our strength and get ready for a new day.

The article's is funny, I know. To tell you the truth, I just wanted to sleep and made up my mind to write about it.

So this post's going to be about sleeping stuff!

First of all, the word «sleep» can be used as a verb or a noun. For example:

How long did you sleep last night?

Did you have a good sleep?

If you want to say that you slept very well, you can say:

I had a good sleep, thanks.

I've slept very late this morning, so I'm full of energy.

I got enough sleep.

If you want to sleep, you can say:

I feel sleepy. I should go to bed.

I want to sleep, I'm off to bed!

A short and bad sleep is called «nap» or «to nap» as a noun. So you can say:

I was very tired and napped right at work yesterday.

It's dangerous to nap when you're driving.
